UMOJA UNIT TRUST SCHEME (UMOJA FUND)

REPORT OF THE BOARD OF DIRECTORS OF THE FUND MANAGER FOR THE YEAR ENDED 30 JUNE 2020

The Board of Directors of UTT Asset Management and Investor Services Plc (UTT AMIS), hereinafter also referred to as the “Fund Manager”, presents the report of Umoja Unit Trust Scheme (hereinafter also the “Fund” or “Scheme”) together with the audited financial statements for the year ended 30 June 2020, which disclose the financial performance for the year and state of affairs of the Fund as at that date.

1. Establishment and management of the Fund

Umoja Unit Trust Scheme, also known as “Umoja Fund” is a collective investment scheme formed by the Unit Trust of Tanzania (UTT), a government sponsored institution that was incorporated on 19 June 2003 under the Trustees Incorporation Act. The main objectives of UTT include establishing, launching and management of collective investment schemes.

Umoja Fund was established in Tanzania under the Deed of Trust of the Umoja Unit Trust Scheme, on 12 May 2005 and is regulated by Capital Markets and Securities (Collective Investment Schemes) Regulations 1997, prescribed under the Capital Markets and Securities Act, 1994.

The Fund is managed by UTT AMIS – formerly Unit Trust of Tanzania, who set up a management structure to carry out the day to day operations of the Fund. The duties of the Trustee/Custodian and the Fund Manager are specified in Sections 2.2 and 4.0 of the Offer Document respectively. The Offer Document sets forth concisely, the information about the scheme that a prospective investor ought to know about the Fund. It also contains information about the rights and obligations of the Fund Manager and Trustee/Custodian to the Fund.

The Custodian of the Fund is CRDB Bank Plc, a commercial bank licensed to carry out banking business under the Banking and Financial Institutions Act, 2006. The duties of the Custodian are specified in Section 5.3 of the Offer Document.

2. Principal activities and investment objectives

The principal activity of the Fund is to invest the pooled funds into a balanced portfolio that enables both high- and low-income investors to diversify risk and obtain competitive returns over the medium and long term through capital growth.

The main objective of the Fund is to empower Tanzanians and other investors through wide ownership of its units and encourage a culture of savings in financial assets. It also gives Tanzanians an opportunity to acquire a stake in privatisation, further participate in the capital markets and obtain a good return on their investment.

3. Financial performance

The financial performance of the Fund for the year is set out on page 10 of these financial statements.

4. Sale and re-purchase of units of the Fund

From 1 August 2006, the Fund opened sale and re-purchase of units. The sale price is based on the Net Asset Value (NAV) per unit of the next working day and re-purchase price is based on the Net Asset Value (NAV) per unit of the next working day, less 1% service charge.

5. Risk warning

An investment in unit trust should be regarded as medium to long term investment. Investors should note that investments in the Fund are subject to market risks and the Net Asset Value (NAV) of the Fund may go up or down depending upon the factors and forces affecting the securities market. Past performance is not a guide to future performance.

UMOJA UNIT TRUST SCHEME (UMOJA FUND)

REPORT OF THE BOARD OF DIRECTORS OF THE FUND MANAGER FOR THE YEAR ENDED 30 JUNE 2020 (CONTINUED)

6. Solvency

The Fund's state of affairs as at 30 June 2020 is set out on page 11 of these financial statements. The Fund Manager considers the Fund to be solvent.

On 11 March 2020, COVID-19 was declared a pandemic by the World Health Organization, and most governments are currently taking restrictive measures to contain its further spread affecting free movement of people and goods. Currently the spread of COVID-19 does not result in a material uncertainty related to such events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern.

7. Performance of the Fund

The table below shows historical performance of the Fund for the last three years.

	30 June 2020	30 June 2019	30 June 2018
Net assets attributable to Unit holders (TZS'000)	217,788,459	205,491,480	231,534,375
Number of units	355,713,846	373,891,304	391,296,495
Net Asset Value (TZS)	612.26	549.60	591.71
Published Net Asset Value (TZS)	636.44	576.92	548.48

The table below shows the highest issue price and the lowest redemption price of the units for the last ten years

	2020 TZS	2019 TZS	2018 TZS	2017 TZS	2016 TZS
Highest issue price	636.44	591.05	584.76	510.84	481.86
Lowest redemption price	571.45	550.29	503.29	461.35	455.27
	2015 TZS	2014 TZS	2013 TZS	2012 TZS	2011 TZS
Highest issue price	468.59	365.69	239.71	207.66	180.56
Lowest redemption price	365.75	239.60	206.32	180.63	166.59

8. Related party transactions

Details of transactions with related parties are disclosed in Note 18 to the financial statements.

9. The Board of Directors of the Fund Manager

Details of the Directors of the Fund Manager who held office during the year and up to the date of this report are found on page 1 of this report.

10. Interest by the Directors of the Fund Manager in the units of the Fund

None of the non-executive Board of Directors of the Fund Manager had holdings of units in the Fund as at 30 June 2020. However, below senior employees of the Fund Manager had holdings of units of the Fund as at 30 June 2020 as follows;

Name	Position	2020 TZS'000	2019 TZS'000
Issa Wahichinenda	Director of Operations and Business Development	13,025	27,714
Daudi Mbaga	Member Senior Management team	2,000	-

UMOJA UNIT TRUST SCHEME (UMOJA FUND)

STATEMENT OF THE DIRECTORS OF THE FUND MANAGER'S RESPONSIBILITIES FOR THE YEAR ENDED 30 JUNE 2020

The Fund Manager's Directors are responsible for the preparation of financial statements that give a true and fair view of Umoja Unit Trust Scheme (Umoja Fund), comprising the statement of financial position as at 30 June 2020, and the statements of profit or loss and other comprehensive income, changes in net assets attributable to unit holders and cash flows for the year then ended, and the notes to the financial statements, which include a summary of significant accounting policies and other explanatory information, in accordance with International Financial Reporting Standards and in the manner required by the Capital Markets and Securities (Collective Investment Schemes) Regulations, 1997.

The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and for maintaining adequate accounting records and an effective system of risk management.

The Directors have made an assessment of the ability of the Fund to continue as a going concern and have no reason to believe the Fund will not be a going concern in the year ahead from the date of approval of these financial statements.

The auditor is responsible for reporting on whether the financial statements give a true and fair view in accordance with the applicable financial reporting framework.

Approval of financial statements

The financial statements of Umoja Unit Trust Scheme (Umoja Fund), as identified in the first paragraph, were approved by the Board of Directors on and signed by:

Casmir Sumba Kyuki
Chairman

Juma Alli Muhimbi
Director

UMOJA UNIT TRUST SCHEME (UMOJA FUND)

**DECLARATION OF HEAD OF FINANCE OF THE FUND MANAGER
FOR THE YEAR ENDED 30 JUNE 2020**

The National Board of Accountants and Auditors (NBAA) according to the power conferred under the Auditors and Accountants (Registration) Act. No. 33 of 1972, as amended by Act No. 2 of 1995, requires financial statements to be accompanied with a declaration issued by the Head of Finance responsible for the preparation of financial statements of the entity concerned.

It is the duty of a Professional Accountant to assist the Board of Directors to discharge the responsibility of preparing financial statements of an entity showing true and fair view of the entity position and performance in accordance with applicable International Accounting Standards and statutory financial reporting requirements.

Full legal responsibility for the preparation of financial statements rests with the Board of Directors as under Directors' Responsibilities Statement on an earlier page.

I Joan Msofe being the Head of Finance of UTT AMIS hereby acknowledge my responsibility of ensuring that financial statements for the year ended 30 June 2020 have been prepared in compliance with applicable accounting standards and statutory requirements.

I thus confirm that the financial statements of Umoja Unit Trust Scheme (Umoja Fund) comply with applicable accounting standards and statutory requirements as on that date and that they have been prepared based on properly maintained financial records.

**INDEPENDENT AUDITOR’S REPORT TO THE UNIT HOLDERS OF
UMOJA UNIT TRUST SCHEME (UMOJA FUND)**

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Umoja Unit Trust Scheme (Umoja Fund) (the “Fund”), set out on pages 10 to 41, which comprise the statement of financial position as at 30 June 2020, the statements of profit or loss and other comprehensive income, changes in net assets attributable to unit holders and cash flows for the year then ended, and notes to the financial statements, comprising a summary of significant accounting policies and other explanatory information.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Umoja Unit Trust Scheme (Umoja Fund) as at 30 June 2020, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs) and in the manner required by the Capital Markets and Securities (Collective Investment Schemes) Regulations, 1997.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor’s Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund and the Fund Manager in accordance with International Ethics Standards Board for Accountants’ *Code of Ethics for Professional Accountants (IESBA Code)* together with the ethical requirements that are relevant to our audit of the financial statements in Tanzania, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matter described below to be the key audit matters to be communicated in our report.

Valuation of corporates bond – TZS 8,229,637,00	
Refer to note 4(a) and note 12 to the financial statements	
Key audit matter	How the matter was addressed in our audit
<p>The impairment assessment of corporate bonds require significant judgement in making key assumptions for credit risk, credit losses and cash flow projections in relation to the recoveries.</p> <p>Given the size of the corporate bonds in the financial statements, high level of judgement and estimation involved in the determination of future recoverable cash flows from the Corporate bonds by management and its impact on the financial results, this was considered as a key audit matter.</p>	<p>Our audit procedures in this area included, among others:</p> <ul style="list-style-type: none"> — Challenging and assessing the key inputs and assumptions used in the valuation model, such as estimated cash flows, growth rates and discount rates; — Reviewing events or transactions that occurred after the measurement date and evaluate whether they support the assumptions made; — Checking mathematical accuracy of the computation by reperforming the Expected Credit Loss (ECL) calculation; — Assessing the competence and capability of the management personnel who performs the valuation by reviewing their skills and experience; and — Considering management’s proposed disclosures and sensitivity assessments for financial reporting purposes.

INDEPENDENT AUDITOR'S REPORT TO THE UNIT HOLDERS OF UMOJA UNIT TRUST SCHEME (UMOJA FUND) (CONTUNUED)

Report on the audit of the financial statements (Continued)

Other Information

The Directors of the Fund Manager are responsible for the other information. The other information comprises the information included in *the Report and Financial statements*, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Directors of the Fund Manager for the Financial Statements

The Directors of the Fund Manager are responsible for the preparation of financial statements that give a true and fair view in accordance with IFRSs and in the manner required by the Capital Markets and Securities (Collective Investment Funds) Regulations, 1997, and for such internal control as the Directors of the Fund Manager determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Directors of the Fund Manager are responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors of the Fund Manager either intend to liquidate the Fund or to cease operations, or have no realistic alternative but to do so.

The Directors of the Fund Manager are responsible for overseeing the financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors of the Fund Manager.
- Conclude on the appropriateness of the Directors of the Fund Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.

**INDEPENDENT AUDITOR'S REPORT TO THE UNIT HOLDERS OF
UMOJA UNIT TRUST SCHEME (UMOJA FUND) (CONTUNUED)**

Report on the audit of the financial statements (Continued)

Auditor's Responsibilities for the Audit of the Financial Statements (Continued)

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Directors of the Fund Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

As required by the Capital Markets and Securities (Collective Investment Funds) Regulations, 1997, we report to you, based on our audit that:

- in our opinion, the financial statements of the Umoja Unit Trust Scheme (Umoja Fund) has been properly prepared in accordance with the requirements of the regulation;
- all persons involved with the conduct and operation of the Scheme have acted properly and in accordance with the requirements of the regulation;
- proper books and records have been kept by the Scheme and the accounts are in agreement with the accounting records of the Scheme; and
- we obtained all the information and explanations which, to the best of our knowledge and belief, are necessary for the purposes of our audit.

Report of the Auditor – page 7 - 9

UMOJA UNIT TRUST SCHEME (UMOJA FUND)

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2020

1 REPORTING ENTITY

Umoja Unit Trust Scheme (Umoja Fund) is an open-ended collective investment scheme domiciled in Tanzania with an initial lock-in period of one year that ended on 31 July 2006. The address of the Fund's registered office is 2nd Floor, Sukari House, Sokoine/Ohio Street, P.O. Box 14825, Dar es Salaam.

Umoja Unit Trust Scheme was established in Tanzania under the Deed of Trust of the Umoja Unit Trust Scheme, on 12 May 2005 and is regulated by Capital Markets and Securities (Collective Investment Schemes) Regulations 1997, as prescribed under Capital Markets and Securities Act, 1994.

The Fund is an open-ended investment fund primarily involved in investing in a diversified portfolio of equity securities issued by companies listed in Dar es Salaam Stock Exchange (DSE), fixed deposits and debt securities issued by corporates and the Government of United Republic of Tanzania with the objective of providing unit holders with competitive returns over the medium to long-term.

All the activities of the Fund are managed by UTT Asset Management and Investor Services Plc (the 'Fund Manager').

2 BASIS OF PREPARATION

(a) Statement of compliance

The financial statements of the Fund for the year ended 30 June 2020 have been prepared in accordance with International Financial Reporting Standards (IFRSs) and in the manner required by the Capital Markets and Securities (Collective Investment Schemes) Regulations, 1997.

(b) Basis of measurements

The financial statements have been prepared on the historical cost basis unless where fair value has been applied in line with the respective accounting policies.

(c) Functional and presentation currency

These financial statements are presented in Tanzanian shillings (TZS), which is the Fund's functional and presentation currency. All amounts have been rounded to the nearest thousands ('000'); except where otherwise indicated.

Functional currency is the currency of the primary economic environment in which the Fund operates. The Fund's investment and transactions are denominated in Tanzanian shillings. Investor subscriptions and redemptions are determined based on the net asset value and received and paid in Tanzanian shillings. The expenses (including management fees, custodian fees and other charges) are denominated and paid for in Tanzanian shillings. Accordingly, management has determined that the functional currency of the Fund is Tanzanian shillings.

(d) Going Concern

The financial statements have been prepared on going concern basis. This basis presumes that Fund Manager will be providing funds to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business for the next 12 months' as they fall due. In view of this, the Directors consider it appropriate to prepare the financial statements on the going concern basis.

On 11 March 2020, COVID-19 was declared a pandemic by the World Health Organization, and most governments are currently taking restrictive measures to contain its further spread affecting free movement of people and goods. Currently the spread of COVID-19 does not result in a material uncertainty related to such events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern.

UMOJA UNIT TRUST SCHEME (UMOJA FUND)
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020 (CONTINUED)

2 BASIS OF PREPARATION

(e) Use of estimates and judgments

The preparation of the financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements are described in Note 3.

3 SIGNIFICANT ACCOUNTING POLICIES

A Change in accounting policies

A number of new standards including IFRS 16 Leases and IFRIC 23 Uncertainty over Income Tax Treatments are effective from 1 July 2019, but they do not have a material effect on the Fund's financial statements.

B The accounting standards set out below have been applied consistently to all periods in presenting these financial statements

a) Foreign currency transactions

Transactions in foreign currencies are translated to the respective functional currencies of the Fund at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at that date. The foreign currency gain or loss on monetary items is the difference between amortised cost in the functional currency at the beginning of the period, adjusted for effective interest and payments during the period, and the amortised cost in foreign currency translated at the exchange rate at the end of the period. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined.

(b) Interest income

The effective interest method is a method of calculating the amortised cost of the financial instrument and allocating the interest income or expense over the relevant period. In terms of the effective interest rate, is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or where appropriate a shorter period to net carrying amount of the financial asset or financial liability. Direct incremental transaction costs incurred, and origination fees received as a result of bringing margin-yielding assets in the statement of Financial Position, are capitalised to the carrying amount of financial instruments and amortised as interest income over the life of the asset.

Interest income presented in the statement of profit or loss and other comprehensive income includes:

- Interest on financial assets at amortised cost on an effective interest rate basis; and
- Interest on investment securities at fair value through profit or loss.

Interest income is recognised on a gross basis, including withholding tax, if any.

UMOJA UNIT TRUST SCHEME (UMOJA FUND)

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2020 (CONTINUED)

3 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B The accounting standards set out below have been applied consistently to all periods in presenting these financial statements (Continued)

(c) Dividend income

Dividend income is recognised when the right to receive income is established. Usually this is the ex-dividend date for quoted equity securities. Dividends are reflected as a component of investment income. Dividend income from equity securities carried at fair value is recognised in the “investment income” line in the statement of profit or loss and other comprehensive income.

(d) Net gain from financial instruments carried at fair value through profit or loss

Net gain from financial instruments at fair value through profit or loss includes all realised and unrealised fair value changes and foreign exchange differences but excludes interest and dividend income.

(e) Expenses

Expenses to the Fund would be charged in accordance with Section 14.0 of the Offer Document: -

- Management fee is charged at 1.8% of the Net Asset Value.
- Custodian fees at 0.1% of NAV with the minimum of TZS 50 million per annum; and
- Other charges at 0.6% of NAV which include the commonly rated charges such as bank charges, marketing, selling expenses and audit fees.

Management fee and other charges are restricted to 2.4% of the NAV. Any additional amount would be borne by the Fund Manager.

(f) Taxation

Under Section 86 of the Income Tax Act, 2004, the Fund is exempt from paying taxes on income, profits or capital gains as such deferred tax is not applicable.

Dividend and Interest income received by the Fund is subject to withholding tax as final tax on the same basis as for individuals. Investment income is recorded gross of such taxes and the withholding tax is included under tax charge for the period.

(g) Redeemable units

All redeemable units issued by the Fund provide the investors with the right to require redemption for cash at the value proportionate to the investor’s units in the Fund’s net assets at the redemption date.

In accordance with IFRS 9 such instruments give rise to financial liability for the present value of the redemption amount. In accordance with the Offer Document, the Fund is contractually obliged to redeem units based on the Net Asset Value per unit of the date of acceptance.

Units applied for repurchase and approved but not settled as at year end are presented as repurchase payables and classified as other liabilities.

(h) Cash and cash equivalents

Cash and cash equivalents include cash and call deposits with banks with maturities of less than three months, which are subject to insignificant risk of changes in their fair value and are used by the Fund in the management of its short-term commitments. Cash and cash equivalents are carried at amortised cost in the statement of financial position.

UMOJA UNIT TRUST SCHEME (UMOJA FUND)

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2020 (CONTINUED)

3 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B The accounting standards set out below have been applied consistently to all periods in presenting these financial statements (Continued)

(i) Investment securities

Investment securities are initially measured at fair value plus incremental direct transaction costs and subsequently accounted for depending on their classification as either fair value through profit or loss, or amortised cost. Only investments in equities are measured at fair value through profit and loss. The rest of investments are measured at amortized cost.

(j) Provisions

A provision is recognized if, as a result of a past event, the Fund has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

(k) Contingent liabilities

The Fund recognises a contingent liability where, it has a possible obligation from past events, the existence of which will be confirmed only by the occurrence of one or more uncertain events not wholly within the control of the Fund, or it is not probable that an outflow of resources will be required to settle the obligation, or the amount of the obligation cannot be measured with sufficient reliability.

(l) Financial Instruments

i. Recognition and initial measurement

The Fund initially recognises regular-way transactions in financial assets and financial liabilities at Fair Value Through Profit and Loss (FVTPL) on the trade date, which is the date on which the Fund becomes a party to the contractual provisions of the instrument. Other financial assets and financial liabilities are recognised on the date on which they are originated.

A financial asset or financial liability is measured initially at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue.

ii. Classification and subsequent measurement

On initial recognition, the Fund classifies financial assets as measured at amortised cost or FVTPL. A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are Solely Payments of Principal and Interest (SPPI).

All other financial assets of the Fund are measured at FVTPL.

UMOJA UNIT TRUST SCHEME (UMOJA FUND)

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2020 (CONTINUED)

3 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B The accounting standards set out below have been applied consistently to all periods in presenting these financial statements (Continued)

(I) Financial Instruments (Continued)

ii. Classification and subsequent measurement (Continued)

Business model assessment

In making an assessment of the objective of the business model in which a financial asset is held, the Fund considers all of the relevant information about how the business is managed, including:

- the documented investment strategy and the execution of this strategy in practice. This includes whether the investment strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Fund's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how the investment manager is compensated: e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Fund's continuing recognition of the assets. The Fund has determined that it has one business model which is:

- Held-to-collect business model: this includes government securities, term deposits with banks, cash and cash equivalents and other receivables. These financial assets are held to collect contractual cash flow.

Assessment whether contractual cash flows are SPPI

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin. In assessing whether the contractual cash flows are SPPI. The Fund considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment. The Fund considers:

- contingent events that would change the amount or timing of cash flows;
- leverage features;
- prepayment and extension features;
- terms that limit the Fund's claim to cash flows from specified assets (e.g. non-recourse features); and
- features that modify consideration of the time value of money (e.g. periodical reset of interest rates).

UMOJA UNIT TRUST SCHEME (UMOJA FUND)

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2020 (CONTINUED)

3 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B The accounting standards set out below have been applied consistently to all periods in presenting these financial statements (Continued)

(I) Financial Instruments (Continued)

ii. Classification and subsequent measurement (Continued)

Reclassifications

Financial assets are not reclassified subsequent to their initial recognition unless the Fund were to change its business model for managing financial assets, in which case all affected financial assets would be reclassified on the first day of the first reporting period following the change in the business model.

Subsequent measurement of financial assets

Financial assets at amortised cost:	These assets are subsequently measured at amortised cost using the effective interest method. Interest income is calculated using effective interest method and recognised in profit or loss.
-------------------------------------	---

Financial assets at FVTPL:	These assets are subsequently measured at fair value. Net gains and losses are recognised in profit or loss.
----------------------------	--

Financial liabilities

Other liabilities are classified as other liabilities and are carried at amortised cost.

Offsetting

Financial assets and liabilities are set off and the net amount presented in the statement of financial position when and only when the Fund has a legal right to set off the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis only when permitted by the accounting standards or gains and losses arising from a group of similar transactions such as in the Fund's trading activity.

iii. Impairment

The Fund recognises loss allowances for ECLs on financial assets measured at amortised cost.

The Fund measures loss allowances at an amount equal to lifetime ECLs, except for the following which are measured at 12-month ECLs;

- financial assets that are determined to have low credit risk at the reporting date; and
- other financial assets for which credit risk (i.e. the risk of default occurring over the expected life of the asset) has not increased significantly since initial recognition.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Fund considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, bases on the Fund's historical experience and informed credit assessment and including forward-looking information.

The Fund assumes that credit risk on a financial asset has increased significantly if it is more than 30 days past due.

UMOJA UNIT TRUST SCHEME (UMOJA FUND)
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020 (CONTINUED)

3 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B The accounting standards set out below have been applied consistently to all periods in presenting these financial statements (Continued)

(I) Financial Instruments (Continued)

iii. Impairment (Continued)

The Fund considers a financial asset to be in default when;

- the borrower is unlikely to pay its credit obligations to the Fund in full, without recourse by the Fund to actions such as realising security (if any is held); or
- the financial asset is more than 90 days past due.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12-month after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Fund is exposed to credit risk.

Measurement of ECLs

ECLs are probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Fund expects to receive).

ECLs are discounted at the effective interest of the financial asset.

Credit-impaired financial assets

At each reporting date, the Fund assesses whether the financial assets carried at amortised cost are credit-impaired. A financial asset is credit impaired when one or more events that have a detrimental impact on the estimated future cash flow of the financial assets have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data;

- i. significant financial difficulty of the borrower or issuer;
- ii. a breach of contract such as default or being more than 90 days past due; or
- iii. it is possible that the borrower will enter bankruptcy or other financial reorganisation.

Presentation of allowance for ECLs in the statement of financial position

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Write off

The gross carrying amount of a financial asset is written off when the Fund has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof.

UMOJA UNIT TRUST SCHEME (UMOJA FUND)

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2020 (CONTINUED)

3 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B The accounting standards set out below have been applied consistently to all periods in presenting these financial statements (Continued)

(l) Financial instruments (Continued)

iv. Derecognition

The Fund derecognises regular-way sales financial assets using trade date accounting. A financial asset is derecognised when the contractual rights to the cash flows from the asset expire, or the Fund transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Fund neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset that is derecognised) and the consideration received (including any new asset obtained less any new liability assumed) is recognised in profit or loss. Any interest in such is transferred assets that is created or retained by the Fund is recognised as a separate asset or liability.

The Fund derecognises a financial liability when its contractual obligations are discharged, cancelled or expire.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

(m) Income distribution to unit holders

Distributions made to unit holders are recognized in the statement of profit or loss and other comprehensive income.

No distribution to unit holders has been made during the year (2019: Nil).

C New relevant standards and amendments to standards in issue but not yet effective and not early adopted by the Fund

A number of new standards are effective for annual periods beginning after 1 July 2019 and earlier application is permitted; however, the Fund has not early adopted the new or amended standards in preparing these financial statements and are not expected to have a significant impact on the Fund's financial statements.

- Amendments to References to Conceptual Framework in IFRS Standards - effective 1 January 2020;
- Definition of a Business (Amendments to IFRS 3) – effective 1 January 2020;
- Definition of Material (Amendments to IAS 1 and IAS 8) – effective 1 January 2020;
- IFRS 17 Insurance Contracts – effective 1 January 2023; and
- Interest Rate Benchmark Reform (Amendments to IFRS 9, IAS 39 and IFRS 7) effective 1 January 2020.

UMOJA UNIT TRUST SCHEME (UMOJA FUND)

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2020 (CONTINUED)

4 FINANCIAL RISK MANAGEMENT

Introduction and overview

The Fund has exposure to the following risks from its use of financial instruments:

- Credit risk;
- Liquidity risk;
- Market risk;
- Operational risk;

This Note presents information about the Fund's exposure to each of the above risks, the Fund's objectives, policies and processes for measuring and managing risk, and the Fund's management of capital.

Risk management framework

The Fund maintains positions in a variety of non-derivative financial instruments in accordance with its investment management strategy.

The Fund's investment portfolio comprises quoted equity investments and debt securities.

Asset purchases and sales are determined by the Fund Manager, who has been given discretionary authority to manage the distribution of the assets to achieve the Fund's investment objectives. Compliance with the target asset allocations and the composition of the portfolio is monitored by the Board of Directors on a quarterly basis. In instances where the portfolio has diverged from target asset allocations, the Fund Manager is obliged to take actions to rebalance the portfolio in line with the established targets, within prescribed time limits.

Credit risk is the risk that counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered with the Fund, resulting in a financial loss to the Fund. It arises principally from debt securities held and cash and cash equivalents.

For risk management reporting purposes, the Fund considers and consolidates all elements of credit risk exposures (such as individual obligor default risk, country and sector risk).

(a) Credit risk

Credit risk is the risk that counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered with the Fund, resulting in a financial loss to the Fund. It arises principally from debt securities held and cash and cash equivalents.

Management of credit risk

The Fund's policy over credit risk is to minimise its exposure to counterparties with perceived higher risk of default by dealing only with counterparties meeting the credit standards set out in the Fund's prospectus.

Credit risk is monitored daily by the Fund Manager in accordance with policies and procedures in place.

The Fund's credit risks are monitored on a quarterly basis by the Fund Management Board of Directors. Where the credit risks are not in accordance with the investment policy or guidelines of the Fund, the Fund Manager is obliged to rebalance the portfolio upon determination that the portfolio is not in compliance with the stated investment parameters.

Credit risk is mitigated by investing in issuers with known credibility (mostly investing in government securities) and it is monitored on an ongoing basis by the Fund Manager.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2020 (CONTINUED)

4 FINANCIAL RISK MANAGEMENT (CONTINUED)

(a) Credit risk (Continued)

Management of credit risk (Continued)

Concentration risk

The Fund Manager reviews credit concentration of debt securities held based on counterparties and industries. As at the reporting date, the Fund's net debt securities exposures were concentrated in the following industries:

	30 June 2020		30 June 2019	
	TZS '000	%	TZS '000	%
Government sector	127,284,711	86.29	121,805,402	86.23
Financial services	3,527,470	2.39	2,784,957	1.97
Corporative societies	8,380,148	11.29	16,641,945	11.78
Others	39,156	0.03	25,202	0.02
	139,231,485	100.00	141,257,506	100.00

As at the reporting date, the Fund's value of investment holding as a percentage of net asset value is as summarised below;

	30 June 2020		30 June 2019	
	TZS '000	%	TZS '000	%
Deposits with banks	3,527,470	1.68	2,784,957	1.36
Government securities and corporate bonds	135,664,859	64.75	138,447,347	67.37
Equity investments	70,199,491	33.51	64,107,754	31.20
Cash and cash equivalents	1,494,826	0.71	363,478	0.18
	210,886,646	100.65	205,703,536	100.11

Settlement risk

The Fund's activities may give rise to risk at the time of settlement of transactions. Settlement risk is the risk of loss due to the failure of the Fund to honour its obligations to deliver cash, securities or other assets as contractually agreed.

For most transactions, the Fund mitigates this risk by conducting settlements through a custodian to ensure that a trade is settled only when both parties have fulfilled their contractual settlement obligations. Settlement limits form part of the credit approval and limit monitoring processes described earlier.

(b) Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulties in meeting obligations arising from its financial liabilities that are settled by delivering cash or another financial asset, or that such obligations will have to be settled in a manner disadvantageous to the Fund.

Management of liquidity risk

The Fund's policy to managing liquidity is to have sufficient liquidity to meet its liabilities, including estimated redemptions of units, as and when due, without incurring undue losses or risking damage to the Fund's reputation.

The Fund's constitution provides for the daily creation and cancellation of units and it is therefore exposed to the liquidity risk of meeting unit holders' redemptions on a daily basis. The Fund's listed securities are considered to be readily realisable as they are all listed on the Dar es Salaam Stock Exchange (DSE).

The Fund's liquidity risk is managed on a daily basis by the Fund Manager in accordance with policies and procedures in place. The Fund's overall liquidity risks are monitored on a quarterly basis by the Board of Directors.

UMOJA UNIT TRUST SCHEME (UMOJA FUND)

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020 (CONTINUED)

4 FINANCIAL RISK MANAGEMENT (CONTINUED)

(b) Liquidity risk (Continued)

Management of liquidity risk (Continued)

It is the Fund's policy to have liquid assets comprising cash and cash equivalents and investments in commercial paper, short term fixed deposits and call deposits for which there is an active and liquid market to cater for anticipated redemptions of units. In addition, the Fund manager is empowered to defer to next dealing day repurchase of units if 10% of the units are re purchased within one dealing day.

Maturity profile of non-derivative financial liabilities based on the contractual cash flows, "undiscounted" including interest and excluding impact of netting is as follows:

	Carrying amount TZS '000	Contractual cash flows TZS '000	Within 1 year TZS '000	1 year and above TZS '000
At 30 June 2020				
Financial liabilities				
Net assets attributable to unit holders	209,518,096	209,518,096	209,518,096	-
Other liabilities	1,512,737	1,512,737	1,512,737	-
	<u>211,030,833</u>	<u>211,030,833</u>	<u>211,030,833</u>	<u>-</u>
At 30 June 2019				
Financial liabilities				
Net assets attributable to unit holders	205,491,480	205,491,480	205,491,480	-
Other liabilities	1,536,602	1,536,602	1,536,602	-
	<u>207,028,082</u>	<u>207,028,082</u>	<u>207,028,082</u>	<u>-</u>

(c) Market risk

Market risk is the risk that changes in market prices, such as interest rate, equity prices and credit spreads (not relating to changes in the obligor's / issuer's credit standing) will affect the Fund's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on risk.

Market risk is potential for both loss and gain to investor resulting from decreases and increases in the unit price of the Fund. The main causes of unit price changes are price changes in the underlying instruments caused by movements in securities prices, changes in the credit rating of instrument issuers, changes in the prevailing level of interest rates and currency movement relative to the Tanzanian shilling.

Management of market risk

The Fund's strategy on the management of market risk is driven by the Fund's investment objective to empower Tanzanians through wide ownership of its units and encourage a culture of savings in financial assets. The Fund market risk is managed on a daily basis by the Fund Manager in accordance with policies and procedures in place. The Fund's market positions are monitored on a quarterly basis by Board of Directors.

Return is the desired reward for assuming market risk. Market risk is managed by the Fund Manager with reference to the Fund's investment mandate, the objective being to produce the highest possible return for a given level of risk.

UMOJA UNIT TRUST SCHEME (UMOJA FUND)

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2020 (CONTINUED)

4 FINANCIAL RISK MANAGEMENT (CONTINUED)

(c) Market risk (Continued)

Interest rate risk

The Fund is exposed to cash flow interest rate risk which is the risk that the future cash flows of a financial instrument will fluctuate because of changes in the market interest rates.

Fair value interest rate risk is another interest rate risk to the Fund; it is the risk that the value of the financial instrument will fluctuate because of changes in market interest rates. The Fund takes on exposure to the effects of fluctuations in the prevailing levels of market interest rates on both the value and cash flow risks.

The table below summarises the exposure to interest rate risk. Assets and liabilities are categorised by the earlier of contractual re-pricing or maturity dates.

(All figures are in millions of Tanzanian shillings).

	Up to 1month	1-3 months	3-12 months	1-5 years	Over 5 years	Non- interest bearing	Total
At 30 June 2020							
Assets							
Cash and cash equivalents	1,495	-	-	-	-	105	1,600

Total interest rate gap	363	-	14,781	22,934	103,517	(141,595)	-

Interest risk sensitivity

The table below sets out the effect on the Fund's net assets attributable to holders of units of a reasonably possible increase of 100 basis points in interest rates at 30 June 2020. A reduction in interest rates of the same amount would have resulted in an equal but opposite effect to the amounts shown. The impact of such an increase or reduction has been estimated by calculating the fair value changes of the fixed-interest debt securities and other fixed-interest-bearing assets, less liabilities. The impact is primarily from the decrease in the fair value of fixed income securities. This analysis assumes that all other variables, in particular foreign currency rates, remain constant.

	2020 TZS'000	2019 TZS'000
Increase in net assets attributable to holders of unit holders	1,489,575	1,415,958
Decrease in net assets attributable to holders of unit holders	<u>(1,489,575)</u>	<u>(1,415,958)</u>

Exposure to other price risks

Other price risks is the risk that the fair value of the financial instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment, its issuer or factors affecting all instruments traded in the market.

Other price risk arises in respect of the Umoja Fund's investment in the shares issued by the listed companies in Dar es Salaam stock exchange. The fair value of the investment as at 30 June 2020 was TZS 70,199,491,000 (2019: TZS 64,107,754,000).

UMOJA UNIT TRUST SCHEME (UMOJA FUND)

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2020 (CONTINUED)

4 FINANCIAL RISK MANAGEMENT (CONTINUED)

(c) Market risks (Continued)

Exposure to other price risks (Continued)

The table below sets out the effect on the net assets attributable to holders of redeemable units of a reasonably possible strengthening or weakening in the prices of the equity instruments in Umoja Fund of 2.7% as at 30 June 2020.

	2020 TZS'000	2019 TZS'000
Strengthening		
Increase in net assets attributable to holders of unit holders	1,895,386	1,895,386
Weakening		
Decrease in net assets attributable to holders of unit holders	(1,895,386)	(1,895,386)

Other price risk sensitivity

Other price risk is the risk that the fair value of the financial instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment, its issuer or factors affecting all instruments traded in the market. Price risk is managed by the Fund Managers by diversifying the portfolio. The internal procedures require the Fund Manager to manage price risk on a daily basis.

The Fund's procedures require price risks to be monitored on a quarterly basis by the Board of Directors. Where the price risks are not in accordance with the investment policy or guidelines of the Fund, the Fund Manager is required to rebalance the portfolio within the prescribed time limits.

(d) Operational risk

'Operational risk' is the risk of direct or indirect loss arising from a wide variety of causes associated with the process, technology and infrastructure supporting the fund's activities with the financial instruments, either internally within the fund or externally at the fund's service providers, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of investments management behaviour.

The fund's objective is to manage operational risks so as to balance the limiting of financial losses and damage to its reputation with achieving its investment objectives of generation returns to investors.

The primary responsibility for the development and implementation of controls over operational risks rests with the board of directors. The responsibility is supported by the development of overall standard for the management of operational risks, which encompasses the controls and the processes at the service providers and the establishment of the service levels with the service providers, in the following areas:

UMOJA UNIT TRUST SCHEME (UMOJA FUND)

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2020 (CONTINUED)

4 FINANCIAL RISK MANAGEMENT (CONTINUED)

(d) Operational risk (Continued)

- Documentation of controls and procedures;
- Requirements for:
 - Appropriate segregation of duties between various functions, roles and responsibilities
 - Reconciliations and monitoring of transactions and
 - Periodic assessment of operational risks faced
- The adequacy of controls and procedures to address the risk identified;
- Compliance with regulatory and other legal requirements;
- Development of contingency plans
- Training and professional development
- Ethical and business standards and
- Risk mitigation including insurance if this is effective.

Capital management

The Fund has no equity. The redeemable units issued by the Fund provide an investor with the right to require redemption for cash at a value proportionate to the investor's unit in the Fund's net assets. See Note 17 for a description of the terms of the redeemable units issued by the Fund.

The Fund's objectives in managing the redeemable units are to ensure a stable base to maximise returns to all investors, and to manage liquidity risk arising from redemptions. The Fund's management of the liquidity risk arising from redeemable units is discussed in Note 4(c). The Fund is not subject to any externally imposed capital requirements.

5 INVESTMENT INCOME

Watoto Fund	(8,639)	(8,461)
Jikimu Fund	(502)	(7,463)
Wekeza Fund	43,427	25,156

19 DETERMINATION OF FAIR VALUES

(a) Valuation models

The Fund measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements.

Level 1: Inputs that are quoted market prices (unadjusted) in active markets for identical instruments;

Level 2: Inputs other than quoted prices included within Level 1 that are observable either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques in which all significant inputs are directly or indirectly observable from market data; and

Level 3: Inputs that are unobservable. This category includes all instruments for which the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments but for which significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

Valuation techniques include net present value and discounted cash flow models, comparison with similar instruments for which observable market prices exist and other valuation models. Assumptions and inputs used in valuation techniques include risk-free and benchmark interest rates, credit spreads and other factors used in estimating discount rates, bond and equity prices, foreign currency exchange rates, equity indices, EBITDA multiples and revenue multiples and expected price volatilities and correlations.

19 DETERMINATION OF FAIR VALUES (CONTINUED)

(a) Valuation models (Continued)

The objective of valuation techniques is to arrive at a fair value measurement that reflects the price that would be received to sell the asset or paid to transfer the liability in an orderly transaction between market participants at the measurement date.

The Fund uses widely recognised valuation models for determining the fair value of common and simple financial instruments, such as interest rate and currency swaps that use only observable market data and require little management judgement and estimation. Observable prices and model inputs are usually available in the market for listed debt and equity securities, exchange traded derivatives and simple OTC derivatives such as interest rate swaps. The availability of observable market prices and model inputs reduces the need for management judgement and estimation and reduces the uncertainty associated with the determination of fair values. The availability of observable market prices and inputs varies depending on the products and markets and is prone to changes based on specific events and general conditions in the financial markets.

(b) Valuation framework

The Fund has an established control framework with respect to the measurement of fair values. This framework includes a portfolio valuation function, which is independent of front office management and reports to the Board of Directors, who have overall responsibility for fair value measurements. Specific controls include:

- verification of observable pricing inputs;
- re-performance of model valuations;
- a review and approval process for new models and changes to such models;
- calibration and back-testing of models against observed market transactions;
- analysis and investigation of significant daily valuation movements; and
- Review of unobservable inputs and valuation adjustments.

When third party information, such as broker quotes or pricing services, is used to measure fair value, then the portfolio valuation function assesses and documents the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of IFRS.

This includes:

- verifying that the broker or pricing service is approved by the Fund for use in pricing the relevant type of financial instrument;
- understanding how the fair value has been arrived at and the extent to which it represents actual market transactions;
- when prices for similar instruments are used to measure fair value, how these prices have been adjusted to reflect the characteristics of the instrument subject to measurement; and
- if a number of quotes for the same financial instrument have been obtained, then how fair value has been determined using those quotes.

Fair value hierarchy – Financial instruments measured at fair value

The table below analyses financial instruments measured at fair value at the reporting date by the level in the fair value hierarchy into which the fair value measurement is categorised. The amounts are based on the values recognised in the statement of financial position. All fair value measurements below are recurring.

19 DETERMINATION OF FAIR VALUES (CONTINUED)

c) Fair value hierarchy – Financial instruments measured at fair value (Continued)

All figures in TZS'000

At 30 June 2020

	Level 1	Level 2	Level 3	Total
Equity investments	<u>70,199,491</u>	<u>-</u>	<u>-</u>	<u>70,199,491</u>
	<u>70,199,491</u>	<u>-</u>	<u>-</u>	<u>70,199,491</u>

At 30 June 2019

	Level 1	Level 2	Level 3	Total
Equity investment	<u>64,107,754</u>	<u>-</u>	<u>-</u>	<u>64,107,754</u>
	<u>64,107,754</u>	<u>-</u>	<u>-</u>	<u>64,107,754</u>

For Level 1 financial instruments the fair value as at year end is based on the latest available redemption price of each share, multiplied by the number of shares held. The quoted prices of equities are obtained from Dar es Salaam Stock Exchange where the shares are traded.

For Level 2 financial instruments the fair value is calculated by estimating the present value through discounting the expected future cash flows using the yield rates of similar Government bonds issued in the recent past, normally past 1-3 months. These yield rates are published by the Bank of Tanzania.

Financial instruments not measured at fair value

The financial instruments not measured at fair value through profit and loss are short-term financial assets and financial liabilities whose carrying amounts approximate fair value, because of their short-term nature and, for the financial assets, high credit quality of counterparties.

Cash and cash equivalents, other receivables and other liabilities: These are short-term financial assets and their carrying amounts approximate fair value because of their short-term nature and the high credit quality of counterparties.

Treasury bonds: These are long term and are carried at amortised cost. Fair values of the treasury bonds are different from their amortised costs and are disclosed in the table below. Treasury bonds are categorised into Level 2 of the fair value hierarchy.

Corporate bonds: These are carried at amounts equal to discounted future cash flows hence the balance approximate fair value.

Net assets attributable to unit holders: The Fund routinely redeems and issues the redeemable units at the amount equal to the proportionate share of net assets of the Fund at the redemption, calculated on a basis consistent with that used in these financial statements. Accordingly, the carrying amount of net assets attributable to holders of redeemable units approximately their fair value. The net assets attributable to unit holders are categorised into Level 2 of the fair value hierarchy.
