## 10.0 TAARIFA YA MENEJA WA MFUKO KUHUSU UWEKEZAJI

- 10.1 Mkurugenzi wa Idara ya Uwekezaji ya Kampuni ya Uwekezaji ya UTT AMIS aliwasilisha taarifa ya Meneja kuhusu uwekezaji katika kipindi cha mwaka wa fedha ulioishia tarehe 30 Juni 2023.
- 10.2 Mkurugenzi alieleza kuwa, Mfuko wa Wekeza Maisha unatoa faida za aina mbili kwa wawekezaji wake ambazo ni faida ya kukuza mtaji na faida ya bima. Mkurugenzi wa Uwekezaji alieleza kuwa thamani ya Kipande kwa muda wa mwaka mmoja ulioishia tarehe 30 Juni 2023 iliongezeka na kufikia shilingi 792.0 kutoka shilingi 704.1 kwa kila kipande sawa na faida ya asilimia 12.5 kwa mwaka. Aidha, Mkurugenzi alieleza kwamba kwa kipindi hicho hicho ukubwa wa Mfuko uliongezeka kwa Shilingi bilioni 4.8 kutoka shilingi bilioni 4.4 hadi kufikia bilioni 9.2.
- 10.3 Katika kipindi cha mwaka wa fedha ulioishia tarehe 30 mwezi Juni 2023, UTT AMIS PLC kama meneja wa mfuko alitumia uzoefu na weledi alionao katika kufikia mgawanyo anuai wa rasilimali za mfuko wa Wekeza Maisha. Mgawanyo anuai wa rasilimali za mfuko mwezi Juni 2023 ulikuwa umewekeza kiasi cha 88.1% kwenye dhamana za serikali za muda mrefu, 11.4% iliwekezwa kwenye hisa. Aidha, 0.5% ziliwekezwa kwenye amana za benki za muda mfupi, lengo ni kukidhi mahitaji ya uendeshaji wa mfuko ikiwemo kulipa fedha kwa wawekezaji pindi wanapouza vipande.
- 10.4 Mkurugenzi alitoa taarifa kuwa, faida katika mfuko wa Wekeza Maisha kwa mwaka wa fedha ulioisha Juni 2023 ilikuwa ni asilimia 12.5 ikilinganishwa na asilimia 14.1 ya mwaka 2022. Akasema, kupungua kwa faida ya mwaka kulichagizwa na kushuka kwa viwango vya riba sokoni. Hata hivyo, hali ya utendaji wa mfuko ni nzuri na shindani ikilinganishwa na kigezo cha ufanisi (benchmark) na maeneo linganifu, ambapo kwa mwaka 2023 faida ni asilimia 12.5 ikilinganishwa na asilimia 7.6 ambacho ni kigezo cha ufanisi. Akaongeza kuwa, ili kupima mafanikio ya mfuko inabidi kulinganisha na viwango vya riba vinavyotolewa na soko kwenye amana za benki na dhamana za serikali.
- 10.5 Mkurugenzi aliwaeleza wawekezaji kuwa, kuna tofauti zingine kubwa ambazo mtu anahitaji kuzingatia wakati wa kulinganisha mfuko wa Wekeza maisha na maeneo mengine ambayo ni Pamoja na kwamba viwango vya riba vinavyooneshwa hapo juu ni kabla ya kutoa kodi ya zuio (withholding tax) ya asilimia 10 wakati faida ya mfuko wa Wekeza maisha ni baada ya

- kutoa kodi ya zuijua ya asilimia 10, kiwango cha chini cha uwekezaji kinachopata riba katika mfuko wa Wekeza maisha ni kuanzia shilingi 8,340.00 tofauti na maeneo mengine ya uwekezaji ambapo kiasi kikubwa cha fedha kinahitajika kuwekwa ili kuweza kupata riba na viwango vya faida kwenye mfuko vinatolewa sawa kwa wawekezaji wote (wawekezaji wa kipato kidogo, wa kipato cha kati na wale wenye kipato kikubwa), hivyo, faida zipatikanazo kwenye mfuko wa Wekeza Maisha ni shindani na ni zaidi ya faida zitokanazo na uwekezaji kwenye amana za benki zilizopo sokoni na maeneo mengine linganifu.
- 10.6 Mkurugenzi aliwaeleza wawekezaji kuwa kwa mwaka 2022 uchumi ulikuwa kwa kiwango cha asilimia 4.7, ukilinganisha na kiwango cha asilimia 4.9 mwaka 2021 (kama ilivyooneeshwa kwenye jedwali namba III). Hata hivyo kilimo, ujenzi na madini vilikuwa vichocheo vikubwa vya ukuaji wa uchumi katika kipindi hicho. Mategemeo ya ukuaji wa uchumi kwa mwaka 2023 ni asilimia 5.2 au zaidi kutokana na kufufuliwa kwa shughuli za kiuchumi hususani uwekezaji kwenye sekta ya umma na binafsi nchini. Hali imara na stahimilivu juu ya mwenendo wa uchumi nchini ni muhimu kwa Mifuko ya uwekezaji wa pamoja inayosimamiwa na UTT AMIS na maeneo mengine ya uwekezaji nchini. Hata hivyo uchumi imara husaidia kutunza na kuimarishe thamani ya uwekezaji na huvutia wawekezaji wa ndani na nje ya nchi.
- 10.7 Mkurugenzi aliongeza kuwa, hali ya mfumuko wa bei nchini kwa mwaka wa fedha ulioisha Juni 2023 ni asilimia 3.6 ikilinganishwa na asilimia 4.4 iliyonakiliwa Juni 2022. Kupungua kwa mfumuko wa bei nchini kunaashiria gharama za bidhaa na huduma mbalimbali zilipungua kwa mwaka ulioisha Juni 2023 ikilinganishwa na kasi iliyokuwepo Juni 2022. Aidha, hali ya uchumi nchini na mwenendo wa mfumuko wa bei ni stahimilivu kiasi ambacho kimewezesha wawekezaji kwenye mifuko ya uwekezaji kuwekeza kwa wingi. UTT AMIS inajitahidi kuwekeza kwenye maeneo yanayotoa faida shindani kuliko kiwango cha mfumuko wa bei.
- 10.8 Katika taarifa yake, Mkurugenzi alisema kwa kipindi cha mwaka mmoja ulioisha tarehe 30 Juni 2023 hali ya utendaji kwa sekta ya benki nchini imeendelea kuwa imara kwani jumla ya rasilimali na amana zilongezeka. Jumla ya amana kwenye benki iliongezeka kwa shilingi trillioni 5.7 (asilimia 20.3) hadi kufikia shilingi trillioni 33.7 kutoka shilingi trillioni 28.0. Aidha, Jumla ya mikopo imefikia shilingi trillioni 31.5 mwaka 2023 ikilinganishwa na shilingi trillioni 25.9 mwaka ulioipa. Ongezeko kwenye kiwango cha mikopo liliababishwa na kupungua kwa masharti na viashiria vya hatari mionganoni mwa wateja. Mkurugenzi akaongeza kuwa kuendelea kuimariika kwa sekta ya benki ni muhimu kwa mifuko ya uwekezaji wa pamoja na uchumi kwa ujumla kwani huduma zitolewazo na benki huchochea ufani kwenye uchumi.
- 10.9 Mwasilishaji alieleza namna sekta ya mawasiliano inavyoendelea kuchochea na kurahisisha Uwekezaji katika mifuko na huduma binafsi. Taarifa iliainisha kuwa kwa kupiga \*150\*82# au kwa kutumia programu tumizi mwekezaji anaweza kufungua akaunti na kuanza Uwekezaji wake. Aidha kuitia simu mwekezaji anaweza kununua na kuza vipande.
- 10.10 Mkurugenzi aliwaeleza wawekezaji kuwa kwa kipindi cha mwaka mmoja ulioisha tarehe 30 Juni 2023, Benki Kuu ya Tanzania kwa niaba ya Serikali ya Jamhuri ya Muungano Tanzania iliongeza kiasi cha dhamana za serikali za muda mfupi sokoni ikilinganishwa na mwaka ulioipa. Kiasi hicho cha dhamana kiliongezwa kwa takribani shilingi trillioni 1.4 (asilimia 73.6) Hata hivyo, Uhitaji wa dhamana za serikali za muda mfupi uliongezeka kwa asilimia 24.1 (shilingi trillioni 0.7) hadi kufikia shilingi trillioni 3.6 kutoka shilingi trillioni 2.9 mwaka jana. Aidha, kiasi kilichokubaliwa baada ya mnada kimeongezeka kwa asilimia 56.2 (shilingi trillioni 0.9) kutoka shilingi trillioni 1.6 hadi shilingi trillioni 2.5 Juni 2023.
- 10.11 Ilitolewa taarifa kuwa, kwa kipindi hicho, kiasi cha dhamana za serikali za muda mrefu kilichouzwa kwenye soko la awali kilikuwa ni shilingi trillioni 4.3 ikilinganishwa na shilingi trillioni 3.3 mwaka ulioipa. Kiwango cha ushiriki kwenye minada hiyo kilipungua hadi shilingi trillioni 4.6 (asilimia 28.1) ikilinganishwa na shilingi trillioni 4.6. Aidha kiwango kilichokubaliwa na Benki Kuu ya Tanzania baada ya mnada kiliongezeka kwa shilingi trillioni 1.2 (asilimia 44.4) hadi shilingi trillioni 3.9 kikilinganishwa na shilingi trillioni 2.7 mwaka 2022. Kwa kipindi cha mwaka mmoja hali ya ushiriki wa wawekezaji kwenye dhamana za serikali za muda mrefu ilipungua ikilinganishwa na ushiriki kwenye dhamana za muda mfupi. Ongezeko la ushiriki katika eneo la dhamana za serikali kuna saidia kuleta na kuboresha hali ya ukwasi na faida sokoni.
- 10.12 Ilitolewa taarifa kuwa, riba katika dhamana za serikali za muda mfupi zilipungua kutoka wastani wa asilima 4.1 mwezi Juni 2022 hadi asilimia 3.5 mwezi Juni 2023. Viwango vya riba jumuishi za mikopo katika benki ya biashara ni asilimia 16.7 ikilinganishwa na asilimia 16.2 kwa mwaka

2022. Uwekezaji kwenye amana za benki kwa muda wa mwaka mmoja zilitoa faida ya asilimia 8.2 ikilinganishwa na asilimia 8.0 mwaka 2022. Aidha, viwango vya hifadhi ya akiba kisheria vya Benki kuu kwa benki za biashara pamoja na punguzo la riba nchini viliendelea kuwa asilimia 7.0 na 5.0 mtawaliwa. Mabadiliko ya riba katika soko la fedha na mitaji huathiri moja kwa moja thamani ya mifuko ya uwekezaji wa pamoja na uchumi kiumbla. Vivyo hivyo kuongezeka kwa riba sokoni hupelekea kuongezeka kwa thamani ya uwekezaji kwenye mifuko hususani pindi uwekezaji mpya unapofanyika.
- 10.13 Taarifa ilitolewa kuwa, kwa kipindi cha mwaka mmoja kilichoisha mwezi Juni 2023, viwango vya kubadilisha fedha kati ya Shilingi ya kitanzania na fedha za kigeni vimeendelea kuwa stahimilivu. Thamani ya Shilingi kwa Dola moja ya kimarekani ilikuwa imara na ya kuridhisha, ingawa ilipungua kwa asilimia 1.0 kutoka Shilingi 2,315.7 Juni 2022 hadi Shilingi 2,339.1 Juni 2023. Uimara wa viwango vya kubadilisha fedha ni muhimu kwa mifuko ya uwekezaji wa pamoja na serikali kwa ujumla inasaidia kutunza thamani ya rasilimali ambazo thamani yake ipo katika shilingi za kitanzania na kuvutia wawekezaji kutoka ndani na nje ya Tanzania.
- 10.14 Taarifa ilitolewa kuwa Kwa muda wa mwaka mmoja ulioisha mwezi Juni 2023 kumekuwa na viashiria chanya katika miamala na shughuli kwenye soko la mitaji na dhamana. Soko limekuwa likifanya kazi vizuri kwa upande wa mauzo na shughuli mbalimbali, tuliona utoaji wa hati fungani mbili mpya za benki ya taifa ya biashara (NBC – Twiga) na benki ya biashara ya Kenya (KCB – Fursa Sukuk) zilizofanikiwa kufanya vizuri kwani jumla ya shilingi bilioni 49.9 zilipatikana. Mwezi Novemba 2022 shirika la Watumishi Housing (WHI) lilizindua mfuko wa uwekezaji wa pamoja unaotwa Mfuko wa Faida (Faida fund) ambaa ulifanikiwa kuvutia wawekezaji na hadi Disemba 2022 mfuko ulinakili shilingi bilioni 7.9.
- 10.15 Hali ya ushiriki kwenye soko la mitaji na dhamana nchini imeongezeka, ni matarajio yetu kuwa hali hii itazidi kuimarika na kuongezeka zaidi. Kuingia kwa wasimamizi wapya wa mifuko (meneja wa mifuko) ya uwekezaji wa pamoja na dhamana mpya sokoni ni ishara nzuri kwa UTT AMIS na soko kwa ujumla.
- 10.16 Kiwango cha ushiriki kwenye eneo la dhamana za serikali na hatifungani za kampuni binafsi kimeongezeka licha ya faida kuwa ya wastani ikilinganishwa na mwaka uliopita. - 10.18 Taarifa ilitolewa kuwa hali ya mauzo ya hisa na shughuli sokoni zilipungua kwa takribani shilingi bilioni 19.0 (asilima 15.0) kutoka shilingi bilioni 126.6 hadi shilingi bilioni 107.6 tarehe 30 Juni 2023. ## 11.0 MASWALI, MAONI NA MAJIBU

**11.1 Wawekezaji waliuliza maswali pamoja na kutoa hoja kama ifuatavyo;**

11.1.1 Pongezi zilitolewa kwa Kampuni ya Uwekezaji ya UTT AMIS kwa Taarifa mbalimbali na nzuri zilizowasilishwa katika Mkutano na juhudzi zilizofanywa na taasisi katika kuhakikisha wawekezaji wanahuduria mkutano kupitia mitandao ya kijamii (Zoom) kitendo kilichosababisha kufikia akidi na kuweza kufanya mkutano rasmi wa wawekezaji.

11.1.2 Mwekezaji alitaka kujua, ni kwa kiasi gani atanuifaika na bima iwapo amepata ulemavu wa kudumu au amefariki. Kwa wale wanaochangia kidogo kidogo/regular investment, je atachangia hadi pale atakapofikisha lengo la uchangiaji au akijumlisha faida ya uwekezaji anayoipata na athari zake ni zipi.

11.1.3 Muwekezaji aliuliza swali kuhusu gharama ya uendeshaji akilenga kupata ufanuzi wa fedha ya mkono wa pongezi ni kitu gani, akirejea ukurasa wa 24

11.1.4 Muwekezaji mwengine aliuliza ni namna gani bima ya wekeza maisha inavyofanya kazi tofauti na bima nyingine za kawaida.

11.1.5 Muwekezaji aliuliza ni kwa nini mfuko wa Wekeza usiruhusu akauti za pamoja (joint account)

11.1.6 Muwekezaji mwengine alielezea juu ya changamoto anayoipata katika benki ya CRDB na mawakala wake anapotaka kuweka fedha ambapo unakuta wahudumu hawajui jinsi ya kuweka fedha kwenye akaunti za mifuko ya UTT AMIS. Pia mawakala hawataki kufanya miamala kwa kuwa hawapati commission na vile vile CRDB wanapaswa kutoa elimu kwa mawakala/wahudumu wa benki.

11.1.7 Muwekezaji mwengine alitoa maoni kwamba kabla ya kuanza mikutano kuwe kunitolewa semina.

### 11.2 Majibu ya Maswali na ufanuzi wa hoja za Wawekezaji:

11.2.1 Pongezi kwa juhudzi na kazi nzuri zilipokelewa kwa ujumla na kuahidi kuendelea kuweka jitihada katika kuhakikisha huduma bora kwa Wawekezaji.

11.2.2 Mwakilishi wa Kampuni ya UTT AMIS alieleza kuwa katika mfuko wa Wekeza Maisha kuna

uchangiaji wa aina mbili, wa kwanza ni uchangiaji wa mkupuo na wa pili ni uchangiaji wa awamu. Faida ya uchangiaji wa mkupuo bima yake itaanza kufanya kazi kuanzia mwaka wa 2 hadi wa 9 baada ya kufanya uwekezaji ambapo ikiwa mwekezaji amepata ulemavu wa kudumu, Bima italipa kiasi chote cha uwekezaji wako na Mfuko utalipa kiasi ulichochangia katika uwekezaji na faida iliyopatikana kwenye uwekezaji huo. Na mchangiaji wa awamu, bima itakulipa ile tofauti kati ya kiasi ambacho muwekezaji amechangia na lile lengo la uwekezaji wake, hata hivyo kikomo cha kurejeshewa fao la bima hakitazidi ni milioni 25. Vile vile ilielezwa kuwa mchangiaji wa awamu anapaswa kuchangia hadi afikishe lengo lake pasipo kujali faida iliyokwisha kupatikana katika uwekezaji wake kwani athari kubwa kwake ni kutofikia lengo alilojiwekea.

11.2.3 Mwakilishi wa Kampuni ya UTT AMIS alijibu kuwa mkono wa pongezi hutolewa kwa wawekezaji ambao hawatakuwa wametoa pesa (Repurchase) kwa kipindi chote cha miaka kumi cha Uwekezaji wao. Ufanuzi ultolewa kuwa, kwa mwekezaji aliyekeza kwa mkupuo na hakutoa pesa kipindi chote cha miaka 10 anapata mkono wa pongezi wa asilimia 7 na kwa mwekezaji aliyekeza kwa awamu(Regular) bila kutoa pesa kwa kipindi hicho cha miaka 10 anastahili mkono wa pongezi wa asilimia 5 ya Uwekezaji alioufanya.

11.2.4 Mwakilishi wa Kampuni ya UTT AMIS alijibu kuwa, bima hufanya kazi pale tu mwekezaji anapopata tatizo au janga kama vile; ulemavu wa kudumu au mwekezaji kufariki. Bima hii ni bima ya maisha na ni tofauti na bima za matibabu zitolewazo na taasisi za bima nchini kama vile NHIF na kadhalika.

11.2.5 Mwakilishi wa Kampuni ya UTT AMIS alijibu kuwa, sera ya uanzishaji wa mfuko wa wekeza maisha ulilenga zaidi mtu mmoja (personal life) ndio maana ikaweka bima ya maisha kwa mtu binafsi na sio kundi. Hivyo kwa sasa sera ya mfuko haikubali kuwa na akaunti za pamoja.

11.2.6 Mwakilishi toka benki ya CRDB alitolea ufanuzi hoja zilizoletwa na mwekezaji ambapo kwanza aliomba radhi kwa changamoto wanazopiticia. Pili alieleza kuwa CRDB imeandaa mpango mkakati wa kazi kwa ajili ya mawakala wao nchi nzima pamoja na wahudumu wa benki katika kuwapa muongozo/ elimu ya namna ya kumhudumia mteja mwenye kuhitaji kuwekeza katika mifuko ya UTT AMIS. Na kuahidi pale penye changamoto katika benki (tawi) kufutilia na kuhakikisha changamoto hazijirudii.

11.2.7 Mkurugenzi wa UTT AMIS alilipokea pendekezo la kutoa semina kabla ya kuanza mikutano na kuahidi kwenda kulifanyia kazi.

## CHAIRMAN'S STATEMENT

**Dear Investors,**

On behalf of the Board of Directors, I am pleased to welcome you all to the 14th Annual General Meeting (AGM) of Wekeza Maisha Fund. We thank you for making time to attend the AGM that will discuss developments of the Scheme for the financial year ended 30 June 2024, get replies to any queries you might have and listen to very interesting speakers who will raise our level of understanding of the ever-changing landscape of financial investment.

As new Chairman of the UTT AMIS Board of Directors, please allow me to record my profound appreciation to Her Excellency, Samia Suluhu Hassan, the President of the United Republic of Tanzania, for appointing me to lead the Board of Directors of UTT AMIS. My appreciation also goes to Honourable Dr Mwigulu Lameck Nchemba (MP), the Minister of Finance, the Permanent Secretary Treasury, Dr. Natu Mwamba and the Treasury Registrar, Mr. Nehemia Mchechu, for the guidance I received following my appointment to the Chairmanship. I also thank you investors into Wekeza Maisha Fund for your confidence in the Fund. As I take over from the previous Chairman, Mr. Casmir Sumba Kyuki, please allow me to record my appreciation for his outstanding leadership of the UTT AMIS Board of Directors. My brother, Kyuki, has steered UTT AMIS from a small organisation to one of the leading organisations in the capital market in Tanzania and the region at large. I, again, thank him for an outstanding tenure and wish him good health and the very best in his future endeavours.

Dear Investors, as we all know, UTT AMIS is a unique wealth creation public institution which was formed by our responsive Government way back in 2003 with several aims including development of collective investment schemes and encouraging saving and investment culture through wide participation in the ownership of distributed shares / units, among others. Indeed, over 20 years of the existing in different formats, a lot of wealth has been created and distributed for investors. It is a pleasure to communicate with my fellow investors who have tasted the joy which comes from the passive investment which enables us to make money while we are sleeping or taking care of other life activities. One wise seasoned successful investor, Warren Buffet – CEO of Berkshire Hathaway in the USA, once quipped that “if you don’t find a way to make money while you sleep, you will work until you die”. I sincerely therefore applaud each investor for the wise decision you took to trust and invest your money in various UTT AMIS funds. As this report will clearly demonstrate, our UTT AMIS is well run by very competent management and staff who are supervised judiciously by various public institutions. Given this level of commitment and supervision, it came by no surprise that UTT AMIS emerged as an overall winner of the most efficiently run public institution in the Country. On behalf of you all, I was privileged to receive a trophy from HE the President, Dr. Samia Suluhu Hassan, in Arusha during the Chairmen and CEOs Forum on 28 August 2024.

Ladies and Gentlemen, it is my belief that you have been following developments of the Fund and that you have received and reviewed the Report of the Scheme for the year ended 30 June, 2024. I am happy to report that the performance of the Fund for the year under review was very good. Returns to investors have exceeded their performance benchmark with annualised return of 14.8% compared to 12.6% recorded in the previous financial year. The rate of return achieved is in line with market development and higher than the benchmark return of 11.2%. During the year under review, the Fund increased in size from Shillings 9.2 billion on 30 June 2023 to Shillings 15.2 billion on 30 June 2024. The increase is mostly attributed to good returns, automation of investment processes and growing public confidence and awareness on the benefits of investing through collective investment schemes.

### Performance of the Economy and Market Environment

Ladies and Gentlemen, despite risks emanating from geopolitical tensions and wars around the World, performance of the Tanzanian economy has continued to improve as it grew by 5.1% in 2023 and is projected to grow by 5.4% in 2024. This compares favourably with average growth of 3.4% in 2023 and 3.8% in 2024 of the Sub-Saharan African countries as projected by the International Monetary Fund. As per the Bank of Tanzania reports, inflation was 3.1% in June 2024 against the target of not more than 5% and the East African countries target of not more than 8%. Over the last one year, market interest rates have remained around same levels indicating overall stability of the market. As for the foreign exchange market, the Tanzanian Shilling depreciated by approximately 12.86% against the US Dollar mostly due to changing policies in the United States of America and effects of geopolitical tensions and the ongoing wars in Asia.

Regarding capital market development, quite good progress was noted during the year under review. A number of new listings of debt securities were made while prices of listed shares improved as reflected through the increase of the Tanzania Share Index (TSI). During the year, TSI increase by 9.37% from 4,091.81 on 30 June 2023 to 4,475.20 on 30 June 2024. This compares favorably with the previous financial year where the increase of the TSI was 4.16%. This indicates that performance of listed companies was better during the financial year under review and that business environment has continued to improve. We thank the President, Her Excellence Samia Suluhu Hassan and the Government for maintaining conducive business and regulatory environment in the Country.

## **Managed Funds Performance and other Developments**

Ladies and Gentlemen, as regards performance for the financial year ended on 30 June 2024, performance indicators show that UTT AMIS and the funds under management performed very well. Funds under management increased from Shillings 1.5354 Trillion on 30 June 2023 to Shillings 2.2382 Trillion on 30 June 2024. This indicates an increase of Shillings 702.8 billion which is 45.7% compared to increase of Shillings 538.9 billion or 54.0% in the previous financial year. Growth in fund size is also supported by the increase in the number of investors in the schemes that went up by 79,519 or 32% compared to 47,480 or 24% in the previous financial year. For the year under review, returns to investors in all the funds under management were very good – as pointed out earlier, Wekeza Maisha Fund had a return of 14.8%.

Ladies and Gentlemen, during the year under review, the Company continued with the final phase of implementation of the five years Strategic Plan to June 2024. The Company also worked on a new Strategic Plan for the next five years. The New Plan is intended to make UTT AMIS one of key players in the capital market in Tanzania and the East African region. To align with Government planning cycle, the Plan will be reviewed in the 2024/2025 financial year so that it ends in June 2030. From the Plan, some of the strategic goals include growing fund size from Shillings 2.2 trillion currently to Shillings 7.5 trillion, and increasing the number of service centres to bring services closer to investors in Tanzania, the East African and Southern African Development communities. Moreover, the Plan indicates that service delivery will mostly be technology driven with minimum or no paperwork. To prepare for implementation of the new Strategic Plan, during the financial year, the Company started working on upgrading of systems so as to enhance computing capability and accommodate higher volume of business. The upgrade project is planned for completion in the twelve months.

## **Prospects for the Financial Year 2024/25**

Ladies and gentlemen, the five years of implementation of UTT AMIS Strategic Plan to 2024 have been extremely successful and beyond what was initially projected. For instance, fund size was projected to grow from Shillings 290.74 billion on 30 June 2019 to Shillings 485.90 billion but later revised Shillings 1,007.90 billion on 30 June 2024, however, actual fund size on that date was Shillings 2.2 trillion. This indicates that actual performance was more than four times the initial projections and more than double the revised projections.

As we get into the first year of the new Plan, the Company intends to complete upgrade of systems to lay the groundwork for the next phase of growth of UTT AMIS business. Moreover, the Company will continue working on priorities including improving existing products and services and identifying new business lines for the benefit of investors, shareholders and other stakeholders. UTT AMIS will also continue working on modernization of operations and ensuring that investors obtain the best returns that the market may provide. It is our intention to make UTT AMIS one of important vehicles for not only wealth creation and management but also generational wealth.

During the Chairmen and CEOs Forum in Arusha, HE President of the United Republic of Tanzania, Dr. Samia Suluhu Hassan, instructed the parastatals which have the capability to venture to go out of Tanzania to look for more economic and profitable opportunities. As UTT AMIS embarks on implementation of the Strategic Plan for the next five years, we intend to reach more investors in Tanzania, East Africa and SADC countries. In fact, the Company has been following market developments in the two regional economic communities for a number of years now. Preliminary indications are that some of these countries have very interesting opportunities. We will enhance our efforts in analysing the new markets so that entry decisions could be made timely. Given the strategic plan goal of expanding the fund size, it is imperative that every opportunity must be seized. Because you already know the benefits of investing your hard-earned cash with UTT AMIS, we request you to be effective ambassadors of passing a word of mouth to your family members, friends and colleagues. In order to empower you for this task, we have a question and answers session as well as presentations, discussions and talks from seasoned experts in this field. Luckily, all the interesting speakers who have accepted to share their expertise are seasoned fellow investors in various UTT AMIS products.

## Acknowledgements

Ladies and Gentlemen, to conclude, I wish to thank you, esteemed investors for your unwavering support and confidence in UTT AMIS and Wekeza Maisha Fund during the year under review. My special appreciation to the Government, represented by the Ministry of Finance, the Office of Treasury Registrar, the Capital Markets and Securities Authority, the Custodian of the funds under management – CRDB Bank, the Dar es Salaam Stock Exchange including Brokers, UTT AMIS members of staff and all stakeholders who supported the Company during the year. It is my hope that you will all continue to extend your support to UTT AMIS for the good of our investors and development of the capital market and the financial services industry in Tanzania.

As a Board of Directors, we collectively look forward to your cooperation over the coming years.

# Manager's Report

*"Kamilisha Ndoto Yako"*

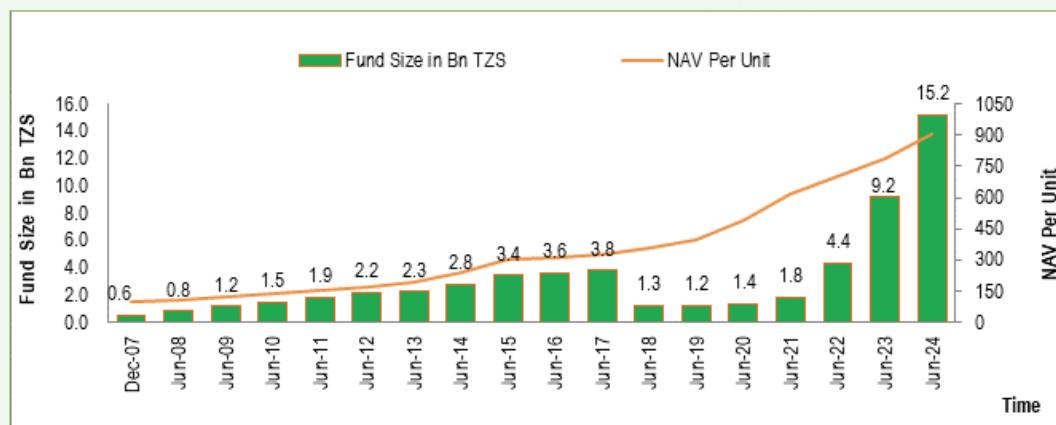

## Fund Manager's Message to the Scheme Members

Wekeza Maisha Fund was the second scheme to be launched by the Unit Trust of Tanzania in 2007. The Scheme has a 10-year window of investment with options for a single lump sum for ten years or periodic equal installments over the ten years. It offers two-fold benefits to investors, being long-term capital appreciation out of investments made and Life Insurance cover provided by the Scheme.

### 1.0 Fund Size and Net Asset Value (NAV) Per Unit

As of 30<sup>th</sup> June 2024, the scheme fund size was TZS 15.2 billion. During the financial year, the scheme fund size grew by TZS 6.0 billion compared to the growth of TZS 4.8 billion recorded in the prior financial year. The NAV per unit increased by TZS 117.2 to TZS 909.2 from TZS 792.0 in 2023.

**Chart I: Wekeza Maisha Fund NAV Per Unit and Fund Size Movement from Inception to June 2024**

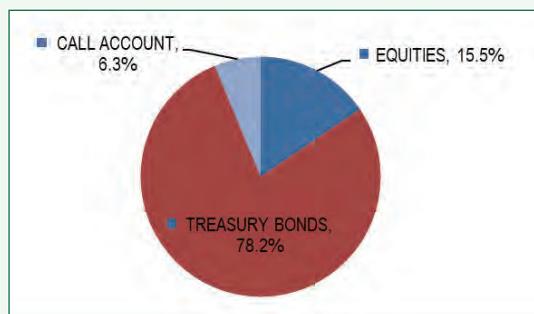

From chart (I) above, one would find out that the fund size significantly dropped when the Fund reached its maturity for the first time in 2017. The Scheme maturity plan triggered a significant decrease in fund size from TZS 3.8 billion in 2017 to TZS 1.3 billion in 2018. In early August 2018, the Fund made a payment to its investors with an average amount of TZS 2.3 billion.

### 2.0 Portfolio Composition

In the financial year under review, UTT AMIS as the Fund Manager ensured that the Scheme investment portfolio achieved a balanced asset mix in accordance with the Scheme Investment Policy and guidelines. The portfolio position as of 30<sup>th</sup> June 2024 was as follows::

**Chart II: Portfolio Composition for Wekeza Maisha Scheme as of 30<sup>th</sup> June 2024**

From Chart II, it can be seen clearly that treasury bonds of various tenures accounted for the largest share of the portfolio by 78.2% to take advantage of higher yields and stable cashflows, followed by listed equities (15.5%), and call account for 6.3%.

### 3.0 Returns

The Scheme's annual return for the financial year that ended in June 2024 was 14.8% compared with the benchmark return of 11.2% (refer to Table I) and previous year return of 12.6%.

Table I and II below shows the movement of returns, where one can see the current and the previous years' performance. The table also, indicates that the returns for the financial years were above their respective benchmark and very competitive when compared with similar or comparable instruments in the market (refer to table I).

For comparison, we look into yields of Treasury bonds of 10 years and below, one-year Treasury bills, and savings deposit rates in the markets as shown in Table II.

7 Years Treasury bond	10.1%	9.3%	9.7%	9.7%
5 Years Treasury bond	9.2%	8.9%	9.7%	10.0%
2 Years Treasury bond	7.9%	4.4%	9.1%	11.6%
1 Years Treasury bills	4.8%	4.7%	6.9%	8.3%
Savings deposit rate	2.2%	1.5%	1.6%	2.8%

Source: BOT

Apart from the rate of return shown above, the other major differences that one needs to consider while comparing Wekeza Maisha with savings deposit rate in the markets are;

- Wekeza Maisha returns are net of tax.
- Wekeza Maisha is an open-ended fund providing liquidity throughout the year with no limit on the minimum balance required to earn return. So, returns from Wekeza Maisha are the same across all types of investors (whether small, medium, or high net worth).
- Investing in Wekeza Maisha is almost like having the ease of a savings deposit account coupled with the power of return over and above a savings account.
- Other instruments have a fixed tenure and if there is an emergency, it entails discounting of these instruments likely at a lower value.
- Flexibility in subscription and withdrawals, so one can buy as well as sell units on any business day.

## 4.0 Economic Indicators

### 4.1 Gross Domestic Product (GDP)

Measured through GDP, the economy grew by 5.1% in 2023 compared with 4.7% in 2022, driven by agriculture, construction, mining and other sectors. For the year 2024, the economy is projected to grow by 5.4% indicating that the Country has built resilience against disruptions caused by ongoing wars, geopolitical tensions and changing policies in international financial markets. Favourable business conditions and public investment in infrastructure contributed to the growth of the economy. The growth outlook is important for UTT AMIS-managed schemes and the entire economy since it provides indications on future prospects as regards performance of the funds.

### 4.2 Inflation Rate

The table below (Table IV), shows that the inflation rate has remained below 5.0%. According to the Monetary Policy Statement issued in July 2024, the rate has been within the EAC and SADC convergence criteria of 5.0% as the rate in June 2024 and June 2023 was 3.1% and 3.6% respectively. The observed trends of the inflation rate were mostly a result of adequacy of food supply, complemented by prudent monetary and fiscal policies implemented during the period.

Over the medium-term period of 3 to 5 years, inflation is projected to evolve within the target of 5.0%. Hence, having low and stable inflation in the economy is favorable to investors, UTT AMIS, and the economy at large, as it helps in preserving value of invested funds and enables investors keep extra cash for investing.

### 4.3 Banking Sector

During the financial year that ended in June 2024, the banking sector, which constitutes the largest segment of the financial services sector, remained sound, stable, and profitable, with adequate capital and liquidity. Total assets increased by TZS 8.3 trillion to TZS 62.0 trillion in June 2024 from TZS 53.7 trillion in the previous year, mainly driven by growth of deposits. Total customer deposits size rose by 13.7% moving from TZS 35.7 trillion to TZS 40.6 trillion while total loans and bills reached TZS 37.4 trillion compared with TZS 31.5 trillion in the previous year.

On digital banking channels, the reliability of payment systems remained stable, evidenced by a high rate of completed transactions and low downtime, encouraging public usage of the platform in financial services delivery. Moreover, in 2023 the volume and value of Wallet to Bank (W2B) transactions were 6.6 million and TZS 2.7 trillion respectively, reflecting an increase of 34.1% and 25.2% from the prior year.

The stability of the banking sector is important to the schemes and investors as it facilitates economic activities and smoothenes subscriptions into the funds. UTT AMIS has successfully integrated systems with a number of commercial banks to enable investors buy units digitally at their convenience.

#### **4.4 Telecommunication Sector**

In the telecom market, subscriptions have increased by 11.5 million to 75.5 million in June 2024 compared with an increase of 7.8 million noted in a similar period of the previous year. Either, the subscriptions volume represents the count of all registered active sim cards used at least once in the past three months. Mobile money subscriptions (active sim cards with mobile money service accounts) have also increased by 18.0% moving from 47.2 million to 55.7 million in June 2024.

The volume of subscriptions for the sale of units received by UTT AMIS through the mobile phones was 47.4 billion in 2024 compared with 25.4 billion received in 2023.

For UTT AMIS, the growth of the Telecom sector has positive impact on service delivery as it has enhanced self-service, improved convenience and reduced paper work. Through mobile devices, investors can easily open accounts, buy or/and sell units, and view investment balances or activities by dialing \*150\*82# or using the UTTAMIS App. In addition, UTT AMIS is considering to increase the withdrawal amount through the mobile platform from the current value of TZS 2.0 million to 5.0 million per day.

#### **4.5 Government Securities**

During the financial year that ended in June 2024, the demand for treasury securities in the primary market was higher compared to the volume registered in the previous year.

In the Treasury bills market, the amount offered went down by TZS 0.6 trillion to TZS 2.7 trillion. However, on the demand side, the volume tendered went up by TZS 0.7 trillion to TZS 4.3 trillion from TZS 3.6 trillion in the prior year. Total successful bids increased by TZS 0.1 trillion from TZS 2.5 trillion to TZS 2.6 in 2024.

In the Treasury bonds market, a total of TZS 3.3 trillion were offered for sale compared with TZS 4.3 trillion in the previous year. Bids received for the period rose by TZS 0.6 trillion to TZS 5.2 trillion compared with TZS 4.6 trillion in the preceding year. Successful bids during the period decreased by TZS 1.1 trillion to TZS 2.8 trillion from TZS 3.9 trillion in 2023.

Increase in demand for treasury securities signifies an increase in public awareness on investments and savings. Hence, the increase in awareness and participation in the domestic market helps the schemes under management to enhance liquidity and deliver attractive returns to investors.

#### **4.6 Interest Rates**

*"Kamilisha Ndoto Yako"*

Interest rates charged on loans and those offered on deposits by banks remained broadly unchanged from last year's pricing. The overall lending rate averaged 15.4% and that of one-year loans at 15.8%. The overall and one-year time deposit interest rates were 7.5% and 8.7%, respectively.

The Treasury Bills Overall Weighted Average Rate (WAR) went up to 8.3% in June 2024 from 6.5% in June 2023. The overall interbank cash market rate (overnight) rose to 7.2% from 5.0%. In January 2024, the Bank of Tanzania shifted from targeting quantity of money (monetary aggregates) to targeting interest rates. During the period, the Bank increased the Central Bank Rate (CBR) from 5.5% to 6.0%.

Yields in the domestic market specifically in the treasury bonds market traded at higher levels compared with rates in the preceding year. The upward movement of interest rates or yields have an upward effect on investors' returns and profitability.

#### **4.7 Foreign Exchange Market**

As of 30<sup>th</sup> June 2024, foreign reserves were more than USD 5.0 billion. The Bank projected that the reserves are sufficient to cover more than four (4) months of imports. The Shilling traded at TZS 2,640.0 per US dollar compared with TZS 2,339.1 per US dollar in June 2023 indicating depreciation of 12.8% compared with 1.0% in the previous year (Table V). The Bank has taken measures including limiting transaction dollarization between residents who are invoicing, quoting, or making payments using foreign currency. These are expected to reduce the demand for foreign currency, increase foreign reserves and stabilize the domestic currency.

## **4.8 Capital Market Performance**

In the financial year under review, the capital markets remained sound and resilient, with domestic investors participating actively in equity, debt securities and Collective Investment Schemes (CIS).

The market has been active in terms of turnover, new entrances, and activities. During the period, two commercial banks and one utility organization issued corporate bonds worth TZS 482.4 billion. During the period, two Funds were launched targeting to invest in both the stock and debt market. Alpha Capital Ltd launched a Sharia-compliant Fund called Alpha Halal and Timiza Fund by Zan Securities Ltd.

3.2	<b>What is inflation and how does it affect the common man?</b>	<p>In simple economic terms – “<b>Inflation is a rise in the general level of prices of goods and services in an economy over a period of time</b>”. When the price level rises, as an effect each unit of a currency buys fewer goods and services.</p> <p>In an economy though there could be many factors which may contribute towards the high rates of inflation or hyperinflation, however one of the prime reasons among them is - the ‘excessive growth of money supply’. When in a country the money supply grows at a faster pace comparative to the rate of economic growth, it provides an easy fuel to the inflationary powers.</p> <p>Globally, the generally accepted indicators to measure inflation are Wholesale Price Index [WPI], Consumer Price Index [CPI], Personal Consumption Expenditure Price Index [PCEPI], and GDP Deflator etc. The Consumer Price Index [CPI] in a country measures prices of a selection of goods and services as purchased by a representing class of consumers.</p> <p>From a common man’s perspective, it is important to understand that the task of checking inflationary conditions in a country is normally vested with the Central Bank. Time and again such monitoring authorities take various measures as they deem fit &amp; proper to effectively manage the pace of inflation in an economy.</p> <p><b>Important Lesson:</b> In a rising inflation economy, keep investing at regular intervals even if the amount is small. By practicing a disciplined systematic investment approach, you can ease off the negative impact of rising inflation on your investments.</p>																																																																						
3.3	<b>What is ‘Magic of Compounding’?</b>	<p>Simply put, compounding refers to the re-investment of income at the same rate of return to constantly grow the principal amount, year after year. Cumulative fixed deposits are a prime example of compounding at work, wherein the total interest that you get paid for the period is more than the rate of interest multiplied by the period of the deposit.</p> <p>Would you care too much whether your rate of return is 10% or 12%? The fact is that if you did, it would make a big difference to your wealth creation as time progresses. The benefit from compounding arises primarily from the fact that income keeps growing the principal to generate higher absolute returns each year. Higher rates of return or longer investment periods increase the principal amount in geometric proportions.</p> <p><b>The Impact of ‘Power of Compounding’:</b></p> <p>Use the table below, to see the impact of ‘power of compounding’ on one-time investment of TZS 50,000/- and TZS 5,000,000/= with different rates of return and periods.</p> <p><b>Table I.</b> “Kamilisha Ndoto Yako”</p> <table border="1"> <thead> <tr> <th>Interest Rate</th> <th colspan="2">12%</th> <th colspan="2">14%</th> </tr> <tr> <th>Principle/Time</th> <th>50,000/=</th> <th>5,000,000/=</th> <th>50,000/=</th> <th>5,000,000/=</th> </tr> </thead> <tbody> <tr> <td>1</td> <td>56,000.00</td> <td>5,600,000.00</td> <td>57,000.00</td> <td>5,700,000.00</td> </tr> <tr> <td>3</td> <td>70,246.40</td> <td>7,024,640.00</td> <td>74,077.20</td> <td>7,407,720.00</td> </tr> <tr> <td>5</td> <td>88,117.08</td> <td>8,811,708.42</td> <td>96,270.73</td> <td>9,627,072.91</td> </tr> <tr> <td>10</td> <td>155,292.41</td> <td>15,529,241.04</td> <td>185,361.07</td> <td>18,536,106.57</td> </tr> <tr> <td>20</td> <td>482,314.65</td> <td>48,231,465.47</td> <td>687,174.49</td> <td>68,717,449.36</td> </tr> </tbody> </table> <p>The table II below also shows the benefit from investing TZS 50,000,000/= and TZS 100,000,000/=, to see the impact of ‘power of compounding’ on one-time investment with different rates of return and time periods.</p> <p><b>Table II.</b></p> <table border="1"> <thead> <tr> <th>Interest Rate</th> <th colspan="2">12%</th> <th colspan="2">14%</th> </tr> <tr> <th>Principle/Time</th> <th>50,000,000/=</th> <th>100,000,000/=</th> <th>50,000,000/=</th> <th>100,000,000/=</th> </tr> </thead> <tbody> <tr> <td>1</td> <td>56,000,000.00</td> <td>112,000,000.00</td> <td>57,000,000.00</td> <td>114,000,000.00</td> </tr> <tr> <td>3</td> <td>70,246,400.00</td> <td>140,492,800.00</td> <td>74,077,200.00</td> <td>148,154,400.00</td> </tr> <tr> <td>5</td> <td>88,117,084.16</td> <td>176,234,168.32</td> <td>96,270,729.12</td> <td>192,541,458.24</td> </tr> <tr> <td>10</td> <td>155,292,410.42</td> <td>310,584,820.83</td> <td>185,361,065.71</td> <td>370,722,131.41</td> </tr> <tr> <td>20</td> <td>482,314,654.66</td> <td>964,629,309.33</td> <td>687,174,493.59</td> <td>1,374,348,987.19</td> </tr> </tbody> </table>	Interest Rate	12%		14%		Principle/Time	50,000/=	5,000,000/=	50,000/=	5,000,000/=	1	56,000.00	5,600,000.00	57,000.00	5,700,000.00	3	70,246.40	7,024,640.00	74,077.20	7,407,720.00	5	88,117.08	8,811,708.42	96,270.73	9,627,072.91	10	155,292.41	15,529,241.04	185,361.07	18,536,106.57	20	482,314.65	48,231,465.47	687,174.49	68,717,449.36	Interest Rate	12%		14%		Principle/Time	50,000,000/=	100,000,000/=	50,000,000/=	100,000,000/=	1	56,000,000.00	112,000,000.00	57,000,000.00	114,000,000.00	3	70,246,400.00	140,492,800.00	74,077,200.00	148,154,400.00	5	88,117,084.16	176,234,168.32	96,270,729.12	192,541,458.24	10	155,292,410.42	310,584,820.83	185,361,065.71	370,722,131.41	20	482,314,654.66	964,629,309.33	687,174,493.59	1,374,348,987.19

240	20	759,368,835.99	989,255,365.39	1,301,166,005.06

By now, you've probably figured out the obvious conclusion from the above table. It is literally 'a waste of time and money' to let your wealth lie in low-income yielding investments for prolonged periods of time. You also must realize that **TIME** and **RATE OF RETURN** are the sources of the magic of compounding!!

**Important Lessons:** (1) Look for an investment opportunity, which can offer you comparatively superior returns; and (2) remain invested for a long time to avail the benefit of 'Magic of Compounding'.
